**NOTE**

Although we do all we can to ensure our cats for adoption are healthy and disease free, we cannot guarantee the health of any animals offered for adoption. Whenever you adopt an animal, you should take it to a licensed veterinarian as soon as possible. To the best of our knowledge, your cat is healthy, but rescue animals have often lived outside and, as such, have often been exposed to a variety of diseases. If the cat you adopt shows signs of illness at any point, you must take it promptly to your veterinarian for treatment at your expense.

By signing this application, I acknowledge that I have answered all questions truthfully. Failure to provide truthful answers can result in the forfeiture of your adopted pet to For the Cats' Sake.
